

High Pressure Pilots on Krones Contiform[®] Machines

Application Description

- High pressure pilot application on Krones Contiform[®] machines.

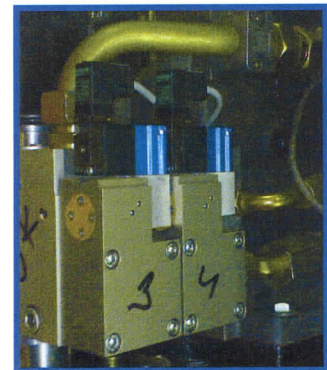

Previous solution

Customer Requirements

- Better life time.
- Increased repeatability in order to guarantee the quality of the products.

MAC Solutions

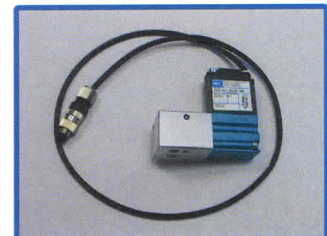

- **36A-B00-JDC0-1KJ Mod. 0650:** possibility to directly connect to existing connector, but protection plates need to be removed.
- **36A-B00-JDCA-1BA Mod. 0650:** with M8 connector (see picture). The wiring of the block needs to be modified, but protection plates can be kept.
- Adapter plates:
NE-36006 (NC) / NE-36007 (NO) - when ordered from MAC Valves Europe
N-36006 (NC) / N-36007 (NO) - when ordered from MAC Valves Inc., Wixom

MAC solution

Customer Benefits

- Drop in replacement.
- Food grade grease.
- Completely adapted and proven solution.
- Small package.
- Insensitivity to contamination.
- Insensitivity to pressure variation.
- Fast, consistent and repeatable response times all over the life time of the valve.
- Reliability and long life security of the function.

Solution with M8 connector

Cost Savings

- Savings realized in increased production, reduced labour cost and fewer replacement parts.
